Report on Mathematics Day Celebrations-2022

Shikshak Parv -Teacher's Day is celebrated every year on 5th September to commemorate the birth anniversary of the former President of India Dr. S. Radhakrishnan, an accomplished scholar and academician. The idea behind the celebration of Shikshak Parv is to acknowledge the dignity of the Teaching Profession and contribution of Teachers in nurturing young minds and nation building.

The National Education Policy (NEP-2020) also advocates for restoring high respect for teachers and to inspire the best to enter into teaching profession.

As a part of Teacher's Day celebrations, Gokula Krishna College of Engineering-Sullurpet organized a host of activities between 5th to 9th September.

Calendar of activities for the Celebration to Commemorate Shikshak Parv-2022

S. No.	Date	Activity
1	05-09-2022	Felicitation of Faculty Members
2	06-09-2022	Screening of Educational Films
3	09-09-2022	Group Discussion

On 5th September Teachers who have shown exemplary results in the university exams of the Academic year 2021-22 odd semester were honoured by the principal by presenting the certificate of excellence. Principal, Vice Principal and heads of all Departments interacted with all faculty and the responsibilities of teachers to build the students career were discussed. Students team of I B. Tech. and II Diploma organized few fun events and sports where all teachers participated enthusiastically and winners were given prizes.

On 6th September all teachers watched and enjoyed the TEDx talk of Dr. Mariappan "Jawa" Jawaharlal (Dr. Jawa) in the AV hall-1 of GKCE.

Dr. Mariappan "Jawa" Jawaharlal (Dr. Jawa) is a Professor of Mechanical Engineering at Cal Poly Pomona. He is recognized as an outstanding educator for his innovative and engaging teaching pedagogy. He has received numerous honours including the Northrop Grumman Award for Excellence in Teaching and Innovative Educator Award. Dr. Jawa is well known for his hands-on, guided discovery approach. He is the founder of Robotics Education through Active Learning (REAL), a unique K-12 outreach program, which reaches thousands of students each year. Dr. Jawa helped develop the Femineer program that inspires young women about engineering and empowers them with real skills. He has over 20 years of industrial, academic and entrepreneurial experience, ranging from starting new engineering programs to product development and commercialization.

On 9th September A Group discussion on “Advantages and challenges of Teaching profession” was organized. Teaching is known as "a noble profession" because of the influence a teacher can have on children in general and those who will become tomorrow's leaders. But teaching may be noble because of the challenges teachers must deal with every day. 2 faculty from each department participated enthusiastically and had a great time.

Conclusion:

In today's society, parents do not have enough time to spend with their children particularly who are in adolescent age to whom we are dealing with. As such, teachers have become the parents and mentors to most students. **To mitigate the side effects of teaching, teachers should ensure that they change their teaching practices regularly and always ensure that they challenge their students. In so doing, class sessions will always be enjoyable.**

Report on Engineer's Day Celebrations

Engineers are seen to be the pillars of our society, working hard day and night to provide us with the best infrastructure. Our country celebrates National Engineer's Day on the 15th of September each year in memory of India's engineering icon M. Visvesvaraya. A highly disciplined engineer, he was known for his sincerity, time management, hard work, and devotion.

To commemorate Engineer's Day, Gokula Krishna College of Engineering-Sullurpet organized a host of activities on 15th September 2022.

Calendar of activities for the Celebration to Commemorate Engineer's Day-2022

S. No.	Date	Activity
1	15-9-2022 to 17-9-2022	Workshop on " Servicing of R&AC Equipment " organized by the Department of Mechanical Engineering
2	15-9-2022(AN)	A tribute to the greatest Indian Engineer Bharat Ratna Sir. Mokshagundam Visvesvaraya

Workshop on " Servicing of R&AC Equipment " was organized by the Department of Mechanical Engineering from 15-9-2022 to 17-9-2022. More than 20 students from Diploma and B. Tech. participated and trained by Mr. Muni Kumar – Student Entrepreneur of Kuma R&AC Services, Tirupati. At the end of this workshop students were able to identify and handle various R&AC tools and equipments. They Practiced copper tube measuring, Marking. Cutting, Reaming, flaring, Swaging, copper to Copper, Copper to iron. Soldering & Brazing. They learned Servicing of split & window air Conditioner.

A tribute to the greatest Indian Engineer Bharat Ratna Sir. Mokshagundam Visvesvaraya

GKCE Celebrated Engineers day as a tribute to the first, and one of the greatest ever engineers hailing from India Sir M. Visvesvaraya. Dr. B. V. Subba rao, Scientist, General manager (Rtd.)-SDSC SHAR, Sriharikota motivated the students by sharing his technical experience in the field of RADAR and interacted with the students by clarifying their doubts in the rocket technology.

Report on the awareness program on Road safety

Mr. Anil Kumar, Motor Vehicle Inspector, Sullurpet and his team organized a road safety awareness program on 12th October, 2022 in the campus of GKCE. The program concentrated on the errors which the vehicle driver and pillion riders make highlighting the reasons to avoid risky driving. Rules, which have been made for the safety of the follower, need to be abided by, as breaking them can put themselves along with others at risk. They stressed that two-wheeler or four-wheeler drivers should follow the road safety rules, wear a helmet, etc., By following the safety rules the number of accidents can be contained and further save human lives. They reiterated that wearing ISI helmet is recommended. Vice Principal of GKCE concluded the event by thanking the Motor vehicle Inspector and his team for the awareness program. She also requested students to be careful while driving on the roads as accidents not only bring pain to the injured but also to the loved ones.

Topic : **Road Safety**

Conducted by : Mr. Anil Kumar, Motor Vehicle Inspector, Sullurpet

Beneficiary : IV B. Tech. students, all other students who drive 2-wheelers and the Bus Drivers of GKCE & GKCP

Venue : Seminar Hall, GKCE

Date : **12-10-2022**

No. of persons attended : 150 Students + 15 Drivers

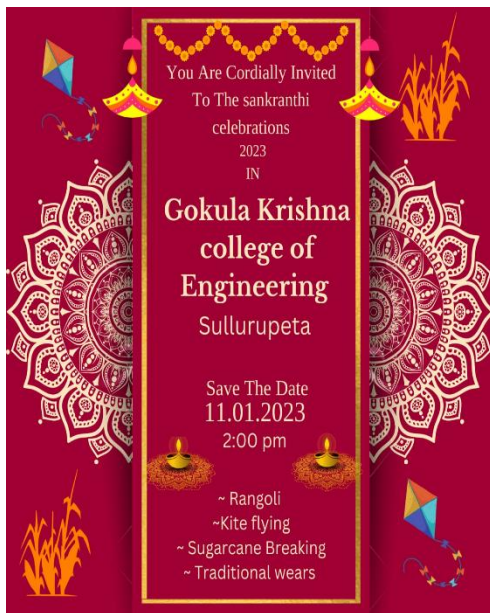

WOMENS' GRIEVANCE CELL

SANKRANTHI CELEBRATIONS-2023

Makar Sankranti is an Indian festival celebrated by several states of India around mid-January. This festival is celebrated in honor of Surya (the Sun God) to pay tribute for the grace of his energy that has enabled life and food on earth. As it is the harvest festival, it is a time of joy, abundance, and celebration in the farming communities, the time when they reap the fruits of their hard labor. We celebrated the Makara Sankranti celebrations in our college campus on 11-01-2023, with different competitions like Rangoli, Sugar cane breaking, Traditional dress wear and Kite flying.

The festival is named after the ceremonial "Pongal", which means "to boil, overflow" and refers to the traditional dish prepared from the new harvest of rice boiled in milk with jaggery (raw sugar). To mark the festival, the pongal dish is prepared by all lady faculty of GKCE , first offered to the gods and goddesses, including the faculty and students.

Glimses of the Celebration:

LIST OF EVENTS AND PARTICIPANTS

RANGOLI: Rangoli forms an integral part of the Makar Sankranti celebration, the campus was completely colorful with colors and rangoli made by students and staff. Floral rangoli, Leaves rangoli, peacock rangoli ,3D rangoli and the center of attraction was rangoli made by Multi Grains by III CSE students.

Kite flying: Kite flying is also a major part of Makar Sankranti; the tradition of kite flying was started so that people would be exposed to the sun which would rid them of the illness caused by winter. The sun's rays, especially during early morning or late afternoon hours is a good source of Vitamin D. It is also believed that people decorated the skies with colorful kites in order to thank the gods. The students of GKCE made wonderful and colorful kites and flew in the grounds of college that covered the sky all with colors.

Students participated and winners list of list of kite flying:

Women Empowerment Cell/ Women's Grievance Committee

National Science Day is celebrated every year on February 28 in commemoration of the discovery of the 'Raman Effect' by the genius scientist Sir C.V. Raman. The Government of India designated February 28 as National Science Day in 1986. On this day, various science-related activities are organized in schools and colleges throughout the country, The theme for National Science Day, NSD 2023 is 'Global Science for Global Wellbeing'.

The Women Grievance Cell/Women empowerment Cell with the joint Co-organizers of Humanities and Sciences, GKCE combinedly celebrated National Science Day on 28th February 2023. Our Guest of Honour is Dr. R. Ramana Reddy, Vice-Principal, JNTUA College of Engineering, Pulivendula, and the college management person C. Sreenivasa Baba sir are being invited to encourage and motivate the student community by interacting on the topic "Global Science for Global Well Being".

Dr.R. Ramana Reddy, Vice-Principal, JNTUA College of Engineering, Pulivendula delivered a wonderful and very informative speech about science and technology and the projects done by our college students, on this occasion and inspired our students. C. Sreenivasa Baba sir acknowledge and thank the continuous and constant support from JNTUA for enriching our college's younger brains. Our college diploma, as well as engineering students, did many science-related projects.

For the best projects done by the students were received mementoes from our college Principal Dr. M. Suresh garu and Vice-Principal M. Gnan Priya madam.

Report on National Girl Child Day-2023

"We must love, safeguard, and respect the girls and women of the country. National Girl Child Day is a reminder to do the same and make this world a better place for them."

Every year India observes National Girl Child Day on January 24 to raise awareness about the significance of education, rights, and health for girl children. Started by the Ministry of Women and Child Development in 2008, the day highlights the prevalent gender discrimination in India at several levels. This year, the Ministry of Women and Child Development has decided to celebrate National Girl Child Week from January 24 to 30 and the authorities have planned various programs across the nation. Moreover, the government has initiated signature campaigns like 'Beti Bachao, Beti Padhao,' plantation drives, awareness camps, and mass oaths for girl child protection.

In GKCE National girl Child Day is pre-celebrated on January 21st. On this occasion, Mandal Legal Services Committee interacted with students about girls' legal rights in society. Honourable Principal Junior Civil judge smt. Shai Faizunnisa and the Respected Additional Judicial Magistrate of First Class Mr. S. Anil Kumar spent their valuable time with the students of GKCE and created awareness about the rights a girl owns and how to remove gender biases.

The other committee members Mr. C. Chakravarthi, Advocate, Mr. PNRV. Prasad – Advocate, Mr. P. Lakshmaniah -advocate, Mr. L. Ganapathi- Legal Aid Counsel, Advocate, Mr. Sri ram, ASI, and Mr. E. Ram Murthy- Advocate also shared their experiences and cleared the doubts of students and faculty.

Faculty Development Program- Soft skills and Emotional Intelligence

Many studies and research have proven **how soft skills and emotional intelligence are directly linked to success**. This is true especially in the education sectors where skills such as communication, language, personal habits, interpersonal skills, managing people, leadership, etc. that characterize relationships with other people are more crucial and relevant than in other sectors. Soft skills contrast to hard skills, which are generally easily quantifiable and measurable, but are not less important than those. Management of Gokula Krishna Group of Institutions organized a Faculty Development Program on Soft Skills and Emotional Intelligence on 15th October 2022 to improve the teamwork, leadership, stress management, conflict management, public speaking, effective communication, meeting management of the Teaching faculty of GKCE & GKCP.

Topic	:	Soft skills and Emotional Intelligence
Conducted by	:	Dr. Prathyusha Subbarao -Counselling Psychologist Personality Development Trainer NLP Master
Beneficiary	:	Teaching faculty of GKCE & GKCP
Venue	:	Seminar Hall, GKCE

Report on Constitution Day Celebrations-2022

National Constitution Day was celebrated at Gokula Krishna College of Engineering, Sullurpet, on 26 November 2022 to commemorate the adoption of the Indian Constitution. The program was organized by the women empowerment cell of GKCE. On this day, Sri. C. Srinivasa Baba Senior Advocate-High court- Amaravathi cum college management trustee addressed the students of GKCE and took them on a journey of the framing of the Indian constitution from its history to its present-day form. He emphasized the importance of Constitution Day, the significance of its celebration and commemorated the people who contributed to the development of Indian constitution. He highlighted the basic differences of Indian constitution than that of other countries with examples indicating the prerequisites of the constitution such as societal, familial and individual needs. Sir has interacted with the students and shared his experiences being a senior advocate.

The students of GKCE, Ms. T. Spandana (III B. Tech.), Ms. Deepika (III B. Tech.), Ms. T. Krupamai (II B. Tech.), Ms. P. Gunasri and Mr. K. Srinivas Teja of II Diploma who won various prizes in the World space week competitions 2022 were felicitated on this occasion.

In the afternoon session, Quiz Competition was conducted on the topic "India: mother of Democracy (Bharat-Lokantra ka Janani)" and winners were awarded.

Women's Grievance Committee

Date: 2-02-2023

Work Shop on Self-Defense (Karate)

Keeping in view, the rising number of crimes against girls in the country, it is important to provide self-defense training to them in the colleges to ensure their safety and security. Self-defense training is a life skill that helps girls to be more aware of their surroundings and be prepared for the unexpected at any time. Through self-defense training, the girls are taught to become psychologically, intellectually, and physically strong enough to protect themselves in times of distress. Self-defense training techniques instill self-confidence amongst girls and help to promote girls' education particularly their transition to higher secondary level to graduates and to reduce the dropout rate.

The Women's Grievance cell of GKCE organized a self-defense workshop in order to prepare them to fight the menace and generate awareness among young girls to face the challenges of society while keeping up their own safety on 31-01-2023. The aim behind organizing the workshop, which was tag-lined as "Look like a beauty and kick like a Bruce Lee" was in lieu of the situation of women in India when it comes to their safety, thus making girls/women mentally and physically ready for their self-defense.

The Trainers made them practice different defense techniques and students and faculty showed a keen interest in the workshop. Around 100 girls and 15 faculty from different courses participated in the workshop with great vigour and learned some kick-ass techniques to combat physical attacks.

The President of the women's Grievance committee, by ringing the gang, who in his address motivated the girls to become self-dependent in every situation and place. The vice President Mrs. Gnana Priya said women are an important part of society and it is our moral responsibility to treat them equally and respectfully she was glad that girls and women took an interest and learned new ways of self defence through this workshop, which is going to be helpful for them in their safety forever.

Women Empowerment Cell/ Women's Grievance Committee

"A WEBINAR ON CANCER AWARENESS"

World Cancer Day is an international day marked on 4 February to raise awareness of cancer and to encourage its prevention, detection, and treatment. Cancer is the second leading cause of death worldwide, representing nearly 1 in 6 deaths globally. Cancer is more likely to be successfully treated when detected early, leading to increased survival rates, less complications, and lower treatment costs. This year's theme marks the second year of the campaign "close the care gap" which is about understanding the inequities in cancer care and taking action to make the necessary progress to address them.

In the view of controlling such a non-communicable disease with the help of our college management support the women's grievance committee came forward to bring awareness about the cancer among the students and faculty of GKCE. On February 4th every year world cancer day is observed, on this basis 23rd February in our college we conducted a webinar on cancer awareness. Since this webinar is conducted in blended mode a link has been created and shared among the groups of various colleges.

The poster is for a webinar titled "A Webinar On Cancer Awareness". It features the Gokula Krishna College of Engineering logo on the top left and a Women's Grievance Committee logo on the top right. The text on the poster includes the college name, address, date (23-02-2023), time (3PM), and venue (AV Hall). It also mentions the organizer, the Women's Grievance Cell, GKCE, and the Director of Women Empowerment Cell, JNTUA, Anantapuram. A photo of Dr. CH. DHEERAJ DAYASAGAR, MD(MANIPAL), FAGE CONSULTANT PHYSICIAN, is shown on the right. The central graphic includes the text "A Webinar On Cancer Awareness" and "Close the care gap" with a World Cancer Day logo.
