REPORT ON BLOOD DONATION -26-10-2022

Date: 28/10/2022

In our blood, we can find a common and fundamental element for the life of any person, no matter their place of origin, their sexual orientation or religion, we are the same species that shares the same internal structure. The actions of donating blood and caring for the planet are not only to serve the society but also directly linked to self-love. When you embrace these two causes, you are protecting your health and well-being. Developing criteria for local consumption and making responsible decisions regarding the products of daily use, the food we eat, or the correct disposal of our waste strengthen our relationship with the earth. Likewise, and according to the Colombian Red Cross, donating blood brings several advantages for the human being, it reduces the risk of suffering a heart attack or a stroke and improves the blood circulation process, allowing the regeneration and oxygenation of the body tissues.

NSS Students of Gokula Krishna College of Engineering, Sullurpet participated in the blood camp arranged by Andhra Pradesh Vaidya Vidhana Parishad, Gudur and donated blood on 20-10-2022. The donors are appreciated with the certificate of participation in the blood donation camp.

**“Bring Change Through Youth Power” -Report on the awareness
program on Road safety**

Youth power can bring revolutionary changes to society by utilizing their potential. India is a country of young people with 65 percent of its population below 35 years of age. That is the potentiality that we have to realize and we give to society and revolutionary change can be brought to society. Mr. Anil Kumar, Motor Vehicle Inspector, Sullurpet, and his team organized a road safety awareness program on 20th January 2023 with the collaboration of GKCE Students as a part of the “**Bring Change Through Youth Power**” program initiated by the Government of Andhra Pradesh. To persuade bikers to don helmets while driving, the RTO team and Students team of GKCE resorted to Holi cross circle which is an accident-prone area where the team handed over a red rose to those without the protective headgear while driving 2 wheelers. The team stopped the traffic rule violators and insisted them the importance of traffic rules by showing various awareness placards.

Mr. Anil Kumar, Motor Vehicle Inspector, Sullurpet warned traffic norm offenders and said Every day e- challans are being slapped on offenders. We will not relax rules for anyone even if he is a police personnel, a lawyer, or a media person. He also requested students to be careful while driving on the roads as accidents not only bring pain to the injured but also to the loved ones. Sir congratulated all students who participated enthusiastically in this campaign.
