Any other suggestion

For this question the following are the observations on students' feedback;

I would like to tell my juniors...to focus on skills rather than subject in a semester. My faculties should give time to focus on technical skills and let juniors know the importance of it. Thank you, mam.

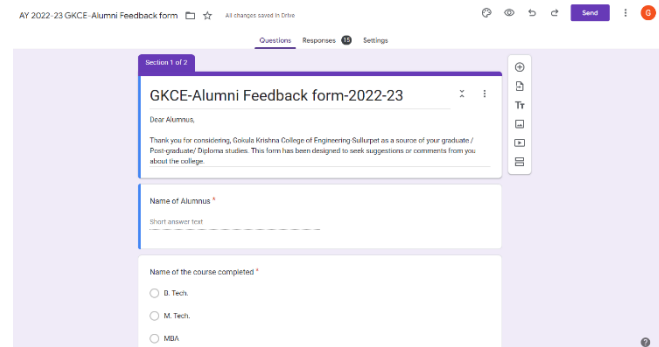

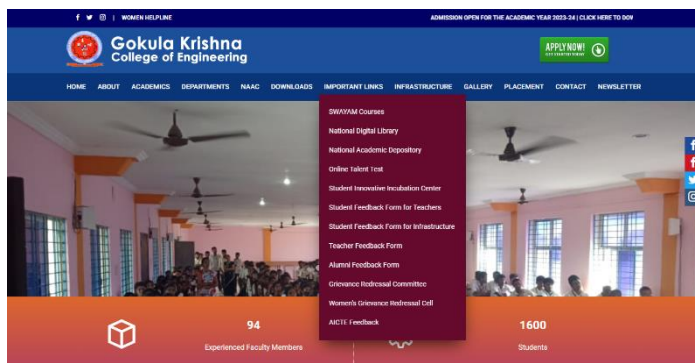

Think out of the box and try to provide more awareness on the career opportunities from the first day

Preparation for interviews should be there. Mock interviews help a lot

thank you very much to ECE faculty and GKCE

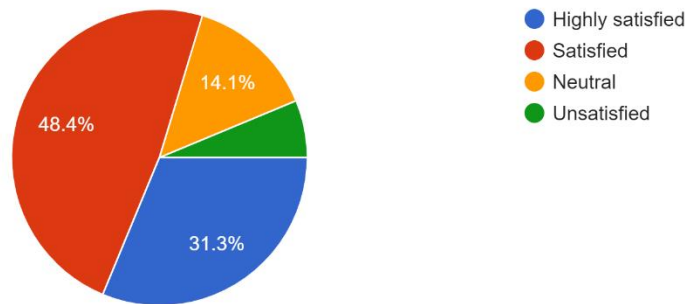

I can say communication is major problem in college so we have to concentrate on that daily for students
